Overview

Modifies the compliance timeline for building code requirements related to elevators.

- 1** **Elevators; entrances sealed.** Modifies the requirement that elevators not meeting building code requirements be taken out of service until modifications to bring the device into compliance with code requirements are completed. New compliance timeline is established in section 2.
- 2** **Compliance timeline.** Provides an alternative compliance timeline for elevators that have a current law compliance deadline of January 29, 2012, or later. Owners of elevators that were notified of compliance issues before the effective date of this section, must submit a compliance plan for their devices by December 30, 2011. Owners not notified before the effective date of this section must submit a compliance plan by December 30, 2011, or within 60 days of notification, whichever is later. Any plan submitted under this section has to result in code compliance by the later of January 29, 2012, or within three years after submission of the compliance plan.
